EXPERIENCE

Assessment & Impact Coordinator

League of Women Voters | Washington, DC | Feb 2025 – Present

- Develop and implement **evaluation plans to measure and report success and impact** of LWV programs and campaigns
- **Build surveys for research and evaluation**
- Leverage the **CRM database** and functionality to understand trends
- **Train staff and volunteers on data collection, analysis, and evaluation practices**
- Develop **logic models and frameworks** to guide program development and evaluation
- **Collaborate cross-departmentally** to define research objectives, develop research proposals, and create **customized evaluation plans**
- **Prepare detailed reports, presentations, and visualizations** to effectively communicate research findings to diverse audiences
- Facilitate **workshops and training sessions** to build client capacity in data-driven decision-making and program evaluation
- Conduct market and **audience research** to assess needs, behaviors, and preferences

Graduate Research and Teaching Assistant

University of Kansas | Lawrence, KS | 2021 – Present

- **Instructor:** senior level **Measurement and Assessment** course
- **Program Evaluator:** EARTH Engineering Research Center grant (NIH)
- **Project VOISS and VOISS Advisor:** virtual reality experience that uses social situations and scenarios to effectively teach social skills. VOISS Advisor supports teacher professional learning. With the innovative features of virtual reality, students can immerse themselves into a virtual environment to develop the skills necessary for the demands of the classroom.
<https://projectvoiss.org/>
- **IPAL:** This grant funded project aims to address the knowledge gap related to invested team members' perspectives on reading support and intervention for autistic students to identify key determinants of individual educators' reading support that can be explored through a more in-depth future project through a Spencer Foundation Small Grant.
- **Atlas - Dynamic Learning Maps:** Alternative assessments designed for students with the most significant cognitive disabilities
<https://dynamiclearningmaps.org/>
- **DebriefScape Suite:** Supported by the US Department of Education Office of Special Education Programs. Intended outcomes: (1) Create a toolkit from existing USDOE OSEP open educational resource for mathematics and science coaches with alignment of an analytical observational tool to support these coaches working with special education teachers K-8 in STEM content. (2) Create a dashboard with objective data output from observations and coaching, inclusive of teacher-driven physiological data, and resources for coaches to support special education teachers in K-8 STEM content.
